ISLET Smart Manufacturing - SAP GROW Fast

Fit-to-standard SAP Cloud ERP for scaling Finnish manufacturers, live in 16 weeks

5-30%
better on-time delivery performance

Up to
30%
faster order-to-cash

100%
increased business visibility

Manage **different production strategies**, also in **complex production environments** (ATO, ETO, MTS, MTO)

Ensure **transparent capacity management**

Manage efficiently **subcontracting** operations in **collaboration with internal production** as a part of production planning

Synchronize your internal material flows with efficient production execution

Optimize inventory values and simultaneously **increase product availability**

Islet Smart Manufacturing - SAP GROW Fast is an SAP-qualified partner-packaged solution built on SAP Cloud ERP for Finnish manufacturers operating ETO, ATO, MTO, and MTS models. By connecting material flow, production, capacity planning, and subcontractor management, it transforms manufacturing performance, strengthening competitive advantage and reducing complexity on a **scalable, AI-driven platform** built for growth.
